SAFETY DATA SHEET

SECTION 1: IDENTIFICATION

COMPANY NAME:AMERICAN INDUSTRIES, INC.PRODUCT NAME:CDG-24ADDRESS LINE 1:4300 Kahn Drive, Box 1405PRODUCT CODE:2532

ADDRESS LINE 2: Lumberton, NC 28359-1405 USA PRODUCT USE: Asphalt/Tar Remover

 TELEPHONE NUMBERS:
 800-753-5153 (or) 910-738-7224
 SDS FILE ID:
 2532.01

 EMERGENCY PHONE:
 CHEMTREC 1-800-424-9300
 SDS DATE:
 09-22-2022

SECTION 2: HAZARDS IDENTIFICATION

GHS Classification:

Physical Flammable liquids 3
Health Skin corrosion/irritation 2
Aspiration hazard 1
Skin sensitization 1

Label elements

Signal word DANGER

Hazard statements: Flammable liquid and vapor. May be fatal if swallowed and enters airways. Causes skin

irritation. May cause an allergic skin reaction.

Precautionary statements:

Prevention Keep away from heat/sparks/open flames/hot surfaces. No smoking. Keep container tightly

closed. Ground/bond container and receiving shipment. Uses explosion-proof

electrical/ventilation/lighting equipment. Use only non-sparking tools. Take precautionary measures against static discharge. Avoid breathing mist or vapor. Wash thoroughly after handling and leave contaminated work clothing at workplace. Wear protective gloves/eye

protection/face protection.

Response If swallowed: Immediately call a poison center/doctor. Do NOT induce vomiting. If on skin

(or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. If skin irritation or rash occurs: Get medical advice/attention. Take off contaminated clothing

and wash before reuse. In case of fire: Use appropriate media to extinguish.

Storage Store in well-ventilate place. Keep cool. Keep locked up.

Disposal Dispose of contents/container in accordance with local/reginal/national/international

regulations.

Supplemental Information 5% of the mixture consists of component(s) of unknown acute oral toxicity.

33.8% of the mixture consists of component(s) of unknown acute dermal toxicity. 85% of the mixture consists of component(s) of unknown acute

inhalation toxicity.

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

<u>Chemical name</u>	CAS number	<u>%</u>
Cyclohexene, 1-methyl-4-(1-methylethyenyl)-, (4R)-	5989-27-5	10-20
Alcohols, C11-14-ISO-C13-RICH, Ethoxylated	78330-21-9	1-10
2-Propanol	67-63-0	<1.0
Ethanol, 2, 2'-Oxybix-	111-46-6	<0.5

If not shown above, the chemical identity and/or exact percentages of the above listed components are being withheld as a trade secret (CBI).

SECTION 4: FIRST AID MEASURES

Inhalation Move victim to fresh air. If symptoms persist, obtain medical attention.

Skin contact Remove contaminated clothing immediately and wash skin with soap and water until all

chemical is removed. In case of eczema or other skin disorders: Seek medical attention and

take along these instructions. Wash contaminated clothing before reuse.

Eye contact Immediately flush eyes with large amounts of water for at least 15 minutes. Remove

contacts if present and easy to do. Contact a physician if irritation develops and persists

Ingestion Contact a physician or poison center immediately Rinse mouth with water. Do not induce

vomiting. If vomiting occurs, keep head low so that stomach content doesn't get into the

ungs.

Most important symptoms/effects,

acute and delayed

Aspiration may cause pulmonary edema and pneumonitis. Direct contact with eyes may cause temporary irritation. Skin irritation. May cause redness and pain. May cause an

allergic skin reaction. Dermatitis. Rash.

Indication of immediate medical attention and special treatment needed

Provide general supportive measures and treat symptomatically. Thermal burns: Flush with water immediately. While flushing, remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to hospital. Keep victim under

observation. Symptoms may be delayed.

General information Take off all contaminated clothing immediately. Ensure that medical personnel are aware

of the material(s) involved, and take precautions to protect themselves. Wash

contaminated clothing before use.

SECTION 5: FIRE-FIGHTING MEASURES

Firefighting equipment/instructions In case of fire and/or explosion do not breathe fumes. Move containers from fire area if

you can do so without risk.

Unsuitable extinguishing methods No not used water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from the

chemical

Vapors may form explosive mixtures with air. Vapors may travel considerable distance to a source of ignition and flash back. During fire, gases hazardous to health may be formed.

Specific methods Use standard firefighting procedures and consider the hazards of other involved materials.

Special protective equipment Full protective clothing and approved self-contained breathing apparatus required for

firefighting personnel

General fire hazards Flammable liquid and vapor

SECTION 6: ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures: For personal protection, see section 8. Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Eliminate all ignition sources (no smoking, flares, sparks or flames in immediate area). Wear appropriate protective equipment and clothing during clean-up. Avoid breathing mist of vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering. Local authorities should be advised if significant spillages cannot be contained.

Methods and materials for containment and cleaning up: Use water spray to reduce vapors or divert vapor cloud drift. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Keep combustibles (wood, paper, oil, etc.) away from spilled material. Take precautionary measures against static discharge. Use only non-sparking tools. Prevent entry into waterways, sewer, basements or confined areas.

Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal. Following product recovery, flush area with water.

Small Spills: Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS. For waste disposal, see section 13 of the SDS

Environmental precautions: Avoid discharge into drains, water courses or onto the ground.

SDS File ID: 2532.01 Product Name: CDG-24 SDS Issue/Revision Date: 09-22-2022 AMERICAN INDUSTRIES, INC. Page 2 of 7

SECTION 7: HANDLING AND STORAGE

Handling

Do not handle, store or open near an open flame, sources of heat or sources of ignition. Protect material from direct sunlight. When using do not smoke. Explosion-proof general and local exhaust ventilation. Take precautionary measures against static discharges. All equipment used when handling the product must be grounded. Use non-sparking tools and explosion-proof equipment. Avoid breathing mist or vapor. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Wear appropriate personal protective equipment. Wash hands thoroughly after handling. Observe good industrial hygiene practices.

Storage

Store locked up. Keep away from heat, sparks and open flame. Prevent electrostatic charge build-up by using common bonding and grounding techniques. Store in a cool, dry place out of direct sunlight. Store in original tightly closed container. Store in a well-ventilated place. Keep in an area equipped with sprinklers. Store away from incompatible materials (see Section 10 of the SDS). Store away from incompatible materials (see Section 10 of the SDS).

Appropriate engineering controls

Explosion-proof general and local exhaust ventilation. Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Eye wash fountain and emergency showers are recommended.

Individual protection measures

The following are recommendations for Personnel Protective Equipment (PPE). The employer/user of this product must perform a Hazard Assessment of the workplace according to OSHA regulations 29 CFR 1910.132 to determine the appropriate PPE for use while performing any task involving potential exposure to this product.

Eye/face protection Face shield is recommended. Wear safety glasses with side shields (or goggles)

Skin protection Hand: wear appropriate chemical resistant gloves. Suitable gloves can be recommended by

the glove supplier.

Other: Wear appropriate chemical resistant clothing. Use of an impervious apron is

recommended.

Splash Contact Material: Nitrile rubber Minimum layer thickness: 0.11 mm Break Through Time: 31 min

Material tested: Dermatril (KCL 740 / Aldrich Z677272, Size M)

Body Protection Complete suit protecting against chemicals, Flame retardant antistatic protective clothing.

The type of protective equipment must be select according to the concentration and

amount of the dangerous substance at the specific workplace.

Respiratory Protection If engineering controls do not maintain airborne concentrations below recommended

exposure limits (where applicable) or to an acceptable level (in countries where exposure

limits have not been established), an approved respirator must be worn.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations When using do not smoke. Always observe good personal hygiene measures, such as

washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated

work clothing should not be allowed out of the workplace.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

Color Clear hazy gel
Physical State Liquid/Gel
Odor Citrus
Flash point 129°F (54°C)

Initial boiling point and boiling range 237.73°F (114.29°C) estimated

Specific gravity .97

Density 8.10 lbs/gal ~ 0.97 g/ml
Flammable class Combustible II estimated

Percent volatile 66.2% estimated
Water solubility Dispersible with water

Oxidizing properties Not oxidizing.

Viscosity Not available

Explosive properties Not explosive.

VOC 1.2%

SECTION 10: STABILITY AND REACTIVITY

Chemical stability Stable under normal conditions

Conditions to avoid Avoid heat, sparks, open flames, and other ignition sources. Avoid temperatures exceeding

the flash point. Contact with incompatible materials.

Reactivity The product is stable and non-reactive under normal conditions of use, storage, and

transport.

Materials to avoid Strong oxidizing agents.

Hazardous decomposition No hazardous decomposition products are known.

Possibility of hazardous reactions No dangerous reaction known under normal conditions of use.

SDS File ID: 2532.01 Product Name: CDG-24 SDS Issue/Revision Date: 09-22-2022 AMERICAN INDUSTRIES, INC. Page 4 of 7

SECTION 11: TOXICOLOGICAL INFORMATION

Information on likely routes of exposure

Inhalation Prolonged inhalation may be harmful

Skin Contact Causes skin irritation. May cause an allergic skin reaction

Eye Contact Direct contact with eyes may cause temporary irritation

Ingestion Droplets of the product aspirated into the lungs through ingestion or vomiting may cause a

serious chemical pneumonia

Symptoms related to the physical,

chemical and toxicological

characteristics

Information on toxicological effects

Aspiration may cause pulmonary edema and pneumonitis. Skin irritation. May cause

redness and pain. May cause an allergic skin reaction. Dermatitis. Rash

Acute toxicity May be fatal if swallowed and enters airways

COMPONENTS: SPECIES TEST RESULTS

2-Propanol (CAS 67-63-0)

Acute: Oral LD 50 Rat 4.7 g/kg

Skin corrosion/irritation Causes skin irritation

Serious eye damage/eye irritation

Direct contact with eyes may cause temporary irritation

Respiratory or skin sensitization Not a respiratory sensitizer. May cause an allergic skin reaction.

Germ cell mutagenicity

No data available to indicate product o ran components present at greater than 0.1% are

mutagenic or genotoxic.

Carcinogenicity Not classifiable as to carcinogenicity to humans.

IARC Monographs CYCLOHEXENE, 1-METHYL-4-(1-METHYLETHENYL)-, 3 Not classifiable as to carcinogenicity

to humans. (4R)- (CAS 5989-27-5)

Reproductive toxicity

This product is not expected to cause reproductive or developmental effects.

Specific target organ toxicity

Single exposure-Not classified

Repeated exposure-Not classified

Aspiration hazard May be fatal if swallowed and enters airways.

Chronic effects Prolonged inhalation may be harmful

SECTION 12: ECOLOGICAL INFORMATION

Ecotoxicity The product is not classified as environmentally hazardous. However, this does not exclude

the possibility that large or frequent spills can have a harmful or damaging effect on the

environment.

COMPONENTS: SPECIES TEST RESULTS

2-Propanol (CAS 67-63-0)

Toxicity to fish LC50 Bluegill (Lepomis macrochirus) >1400 mg/l, 96 hours

Cyclohexene, 1-methyl-4-(1-

methylethenyl)-, (4R)- (CAS 5989-27-5)

Toxicity to crustacea EC50 Water flea (Daphnia pulex) 69.6 mg/l, 48 hours

Toxicity to fish LC50 Fathead minnow (Pimephales 0.619 – 0.796 mg/l, 96 hours

promelas)

Ethanol, 2.2'-OXYBIS- (CAS 111-46-6)

Toxicity to fish LC50 Western mosquitofish (Gambusia >32000 mg/l, 96 hours

affinis)

Persistence and degradability No data available

Bio-accumulative potential

Partition coefficient n-octanol / 2-PROPANOL .005

Water (log Kow)

Cyclohexene, 1-methyl-4-(1-methylethenyl)-, (4R)- 4.232

Mobility in soil No data available

Other adverse effects

No other adverse environmental effects (e.g. ozone depletion, photochemical ozone

creation potential, endocrine disruption, global warming potential) are expected from this

component.

SECTION 13: DISPOSAL CONSIDERATIONS

Disposal instructions Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose

of contents/container in accordance with local/regional/national/international regulations.

Local disposal regulations Dispose in accordance with all applicable regulations.

Hazardous waste code

The waste code should be assigned in discussion between the user, the producer, and the

waste disposal company.

Waste from residues/unused product Dispose of in accordance with local regulations. Empty containers or liners may retain

some product residues. This material and its container must be disposed of in a safe

manner (see Disposal instructions).

Contaminated Packaging Since emptied containers may retain product residue, follow label warnings even after

container is emptied. Empty containers should be taken to an approved waste handling

site for recycling or disposal.

SECTION 14: TRANSPORT INFORMATION

DOT Information Cleaning Compounds, Non-Hazardous; Not regulated as dangerous godos.

UN3082

ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (CYCLOHEXENE, 1-METHYL-4-(1-METHYLETHENYL)-, (4R)-, ALCOHOLS, C11-14-ISO-, C13-RICH,

SECTION 16: OTHER INFORMATION

Important Note: To be the best of our knowledge, the information contained herein is accurate. However there is no assumption of liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All materials may present unknown hazards and should be used with caution. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that exist. Since the conditions of handling, storage and disposal of this product are beyond the control of the manufacturer/supplier, the manufacturer/supplier will not be responsible for loss, injury, or expense arising out of the products improper use. Various government agencies may have specific regulations regarding the transportation, handling, storage, use, or disposal of this product which may not be covered by this SDS. The user is responsible for full compliance.
