		do. Continue rinsing.	sly with water for several minutes. Remove contact lenses, if	
		•	adical attention	
	P337+P313 If eye irritation persists: Get medical attention. P302+P352 IF ON SKIN: Wash with plenty of soap and water.			
	P302+P352 IF ON SKIN: Wash with plenty of soap and water. P332+P313 If skin irritation occurs: Get medical attention.			
	P352+P315 in skin initiation occurs. Get medical attention. P362+P364 Take off contaminated clothing and wash it before reuse.			
P410+P403 - Protect from sunlight. Store in a well-ventilated place. SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS				
Chemical name		<u>CAS number</u>	<u>%</u>	
Methyl Siloxane Linear/C	yclic	70131-67-8	>60.0%	
Silica, Amorphous		7631-86-9	7% - 13%	
Mineral Seal Oil		64742-46-7	<=7.0%	
Methyltriacetoxysilane		4253-34-3	1% - 5%	
Ethyltriacetoxysilane		17689-77-9	1% - 5%	
Diflouroethane 75-37-6 1% - 5%			1% - 5%	
Specific chemical identity and/or exact percentage (concentration) of the composition has been withheld to protect confidentia			he composition has been withheld to protect confidentiality.	
SECTION 4: FIRST AID MEASURES				
	N = 11 = 66 = ++		feel we well (as a serie of Cating a disclast texting	

SECTION 4: FIRST AID WEASURES	
Inhalation	No ill effects expected. If exposed/feel unwell/concerned: Get medical attention.
Skin contact	Wipe off with a towel. Wash with soap and water. Get medical attention if irritation persists.
Eye contact	Wash immediately with large volumes of fresh water for at least 15 minutes. Get medical attention.
Ingestion	Ingestion is not a likely route of exposure. Get medical attention if you feel unwell.
SECTION 5: FIRE-FIGHTING MEASI	JRES
Suitable extinguishing media	Use extinguishing media suitable for surrounding fire.

Unsuitable extinguishing media	None known.						
Specific hazards arising from the chemical	Not classified as flammable but contains a flammable propellant. Contents under pressure. Burning may produce silicon oxides; carbon oxides. Exposure of containers to heat and flames can cause them to rupture often with violent force.						
Special protective equipment and precautions for firefighters	Firefighters should always wear positive pressure self-contained breathing apparatus and full protective clothing. Cool fire-exposed containers with water. Use shielding to protect against bursting cans. Water may be used to cool containers to prevent pressure build-up and explosion when exposed						
Fire-fighting procedures	ighting procedures to extreme heat.						
SECTION 6: ACCIDENTAL RELEASE							
Emergency Procedures Personal precautions	Ventilate area. Wear appropriate clothing and equipment. Avoid breathing vapors. Avoid contact with skin, eye or clothing. Do not touch damaged containers or spilled materials unless wearing appropriate protective clothing.			-			
Environmental precautions	Avoid release to environment. Inform appropriate managerial or supervisory personnel of all environmental releases.			-			
Recommended Equipment	Wear appropriate p Place leaking can ir	protective equipm a pail in a well-v	entilated ar	ea until pressure has dissi			
SECTION 7: HANDLING AND STOR		osorbents and pla	ce into a su	itable container for dispo	sal.		
SECTION 7. HANDLING AND STOR		eyes and skin. Av	oid breathi	ng vapors or gas. Use only	y with adequate		
Precautions for safe handling	Avoid contact with eyes and skin. Avoid breathing vapors or gas. Use only with adequate ventilation. Wash thoroughly with soap and water after handling. Contents under pressure, do not puncture or incinerate containers. Do not puncture or incinerate (burn) cans. Do not spray in eyes. Do not take internally.						
Ventilation Requirements	Use in well ventilat	ed place.					
Conditions for safe storage, including any incompatibilities	Store and use in a cool, dry, well-ventilated area, away from oxidizers and other incompatible materials. Do not store in direct sunlight or above 120°F (49°C).

Stable under normal storage conditions
None known
Keep away from heat, sparks, extreme temperature, flame, other sources of ignition and incompatible materials.
Burning may produce silicon oxides; carbon oxides.
Strong acids, strong bases, strong oxidizing agents.

SECTION 11: TOXICOLOGICAL INFORMATION			
Skin corrosion/irritation	Causes skin irritation.		
Classification of the substance or mixture	There is no toxicological data available for this product.		
Serious eye contact	Causes serious eye irritation		
Carcinogenicity	No data available.		
Germ Cell Mutagenicity	No data available.		
Reproductive toxicity	No data available.		
Respiratory/skin sensitization	No data available.		
Specific target organ toxicity-single exposure	No data available.		
Specific target organ toxicity-repeated exposure	No data available.		
Aspiration hazard	No data available.		
Acute toxicity	No data available.		
SECTION 12: ECOLOGICAL INFORMATION			
Toxicity	No data available.		
Classification of the substance or mixture	There is no ecological data available for this product.		
Persistence and degradability	No data available.		
Bio-accumulative potential	No data available.		
Mobility in soil	No data available.		
Other adverse effects	No data available.		

SECTION 13: DISPOSAL CONSIDERATIONS

Disposal instructions

Under RCRA, it is the responsibility of the user of the product, to determine at the time of disposal whether the product meets RCRA criteria for hazardous waste. Waste management should be in full compliance with federal, state, and local laws. Empty containers retain product residue which may exhibit hazards of material, therefore do not pressurize, cut, glaze, weld or use for any other purposes. Return drums to reclamation centers for proper cleaning and reuse.

SECTION 14: TRANSPORT INFORMATION

DOT

UN Number	UN1950	
Proper Shipping Name	Aerosols, non-flammable (each not exceeding 1 L capacity) (LTD QTY)	
Hazard Class	2.2	
This product meets the exception requirements of section 173.306 as a limited quantity and may be shipped as a limited quantity. Unti		
12/31/2020, the "Consumer Commodity - ORM-D" marking may still be used in place of the new limited quantity diamond mark for		
packages of UN 1950 Aerosols. Limited quantities require the limited quantity diamond mark on cartons after 12/31/20 and may be u		

SECTION 15: REGULATORY INFORMATION			
	COMPONENT	% by Weight	REGULATION
	Methyl Siloxane Linear/Cyclic (70131-67-8)	>60%	SARA312, TSCA
	Silica, Amorphous (7631-86-9)	7% - 13%	SARA312, TSCA, OSHA
	Mineral Seal Oil (64742-46-7)	<=7%	SARA312, TSCA, OSHA
	Methyltriacetoxysilane (4253-34-3)	1% - 5%	SARA312, TSCA
	Ethyltriacetoxysilane (17689-77-9)	1% - 5%	SARA312, TSCA
	Difluoroethane (75-37-6)	1%-5%	SARA 312, VOC-exempt, TSCA, ACGIH, OSHA

now in place of the "Consumer Commodity ORM-D" marking and both may be displayed concurrently.

* There are points of differences between OSHA GHS and UN GHS. In 90% of the categories, they can be used interchangeably, but for the Skin Corrosion/Irritant Category and the Specific Target Organ Toxicity (Single and Repeated Exposure) Categories. In these cases, our system will say UN GHS.

SECTION 16: OTHER INFORMATION

Important Note: To be the best of our knowledge, the information contained herein is accurate. However there is no assumption of liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All materials may present unknown hazards and should be used with caution. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that exist. Since the conditions of handling, storage and disposal of this product are beyond the control of the manufacturer/supplier, the manufacturer/supplier will not be responsible for loss, injury, or expense arising out of the products improper use. Various government agencies may have specific regulations regarding the transportation, handling, storage, use, or disposal of this product which may not be covered by this SDS. The user is responsible for full compliance.
